"I hope I can make clear to you in what sense I use those words. I do not mean a mere partnership in the things that are expedient. I mean what I was trying to indicate a few moments ago, that you cannot separate politics from these things; that you cannot have real intercourse of any kind amidst political jealousies which is only another way of saying that you cannot commune unless you are friends and that friendship is based upon your political relationship with each other, perhaps more than upon you are friends and that friendship is based upon your political relationship with each other, perhaps more than upon any other kind of relationship between nations. If nations are politically suspicious of one another all their intercourse is embarrassed. That is the reason I take it, if it be true, as I hope it is, that your thoughts, even during this congress, though the questions you are called to consider are apparently so foreign to politics, have again and again been drawn back to the political inferences. # An Easy Way To Get Fat And Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

cannot get fat until your digestive tract assimilates the food you eat.

There is a preparation known to reliable druggists almost everywhere which seemingly embodies the missing elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This modern treatment is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to the starved, broken-down cells and tissues of your body. You can readily picture what result this amazing transformation should produce as with increased weight the cheeks fill out, hollows about neck, shoulders and bust disappear and from 10 to 29 pounds of solid, healthy flesh is added to the body. Sargol is absolutely harmless, inexpensive, efficient. Powers-Kelly Drug Co. Waco, and other leading druggists of this vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

"I hope I can make clear to you in what sense I use those words. I do not mean a mere partnership in the things that are expedient. I mean what I was trying to indicate a few moments ago, that you cannot separate politics from these things; that you cannot have real intercourse of any kind amidst political jealousies which is only another way of saying that you cannot commune unless you are friends and that friendship is based upon your political relationship

you are friends and that friendship is hased upon your political relationship with each other, perhaps more than upon any other kind of relationship between nations. If nations are politically suspicious of one another all their intercourse is embarrassed. That is the reason I take it, if it be true, as I hope it is, that your thoughts, even during this congress, though the questions you are called to consider are apparently so foreign to politics, have again and again been drawn back to the political inferences. The object of American statesmanship on the two continents is to see that American friendship is founded on a rock.

"You gentlemen," he said, "are entering upon your duties as American in the first place so far as the stronger principal of self-restraint and respect for

The Baylor soccer football team leaves Saturday for Dallas to play a game with the Dallas Soccer club, an English and Scotch organization.

Baylor's team has been coached by E. W. Provence and led by E. O. Bernado. Mr. Provence has had much experience with soccer teams and has been before the public before in Waco, with the team he put out in 1914. He again appears with brighter prospects than before. Mr. Bernado is a native of Brazil and a brilliant player, having had experience before coming to Baylor. With him are several other Brazilians who will take part in other Brazilians who will take pa

of 5 to 8 points. The higher prices around the opening were in sympathy with the wide advance in the English market, and the sag was a response to the sharp break late in the day in Liverpool.

Freight rates from New Orleans to Liverpool of \$15 a bale were posted on the blackboards at the exchange today and they excited much bearish comment. At the same time, spots held steady at quotations and reports from interior spot centers were to the effect that sellers were not willing to offer concessions.

The market was given a steady undertone by bullish expectations concerning the forthcoming census bureau report on ginning, many traders looking for figures not to exceed 10,500,000 bales as the ginnings to Jan. 1.

The Baylor soccer football team leaves Saturday for Dallas to play a game with the Dallas Soccer club, an English and Scotch organization.

Baylor's team has been coached by E. W. Provence and led by E. O. Bernado. Mr. Provence has had much experience with soccer teams and has been before the public before in Waco, with the team he put out in 1914. He again appears with brighter prospects than before. Mr. Bernado is a native of Brazil and a brilliant player, having had experience before coming to Baylor. With him are several other Brazilians who will take part in the contest.

The market was given a steady undertons by builish expectations concerning the forthcoming census bureau report on ginning, many traders looking for figures not to exceed 10,500,000 bales as the ginnings to Jan. 1.

One of the most interesting features ever presented in an American newspaper will appear in the Waco Morning News, entitled "WHO'S WHO IN WACO."

There are too many people in the present day limelight for an approach to their single identity. They are all "WHO'S WHO" and so are all the

rest of us, potentially. The question—are you a "close" observer or only a "casual" one?

There will be many of them.
